

Browning Dark Ops FHDR40

When you need a trail camera that's as invisible as it is powerful, the Browning Dark Ops FHDR40 delivers in every way. Engineered with the advanced Gen 2 Night Optics System and an invisible Radiant 4 Night IR flash, this camera captures every detail in full 40MP HDR-enhanced clarity without ever revealing its presence. Whether you're monitoring elusive wildlife or securing your property, the Dark Ops FHDR40 brings you superior, discreet nighttime imagery that won't alert animals or intruders.

With Radiant 4 Night IR Illumination, this camera reaches up to around 25 metres in complete darkness, capturing clear, crisp images and video. Its HDR technology elevates night imagery with enhanced detail and depth, bringing even distant subjects into sharp focus.

The Dark Ops FHDR40 is equipped for high-speed performance with an adjustable 0.135 - 0.7-second trigger speed, ensuring every movement is captured exactly when it happens. Customizable IR flash modes—Fast Motion, Long Range, and Economy—enable you to fine-tune the flash for optimal performance in any setting, whether open fields or dense woodlands. With an adjustable detection range up to 24 metres and 1080p Full HD video with sound up to 2 minutes in length, you'll never miss a critical moment.

The Dark Ops FHDR40's battery meter supports alkaline, rechargeable, and lithium batteries, ensuring consistent, long-term power in the field. This camera supports SDXC memory cards up to 512GB.

Note: Nighttime video is limited to a maximum duration of 20 seconds. This is to prevent extreme battery drain.

Model: BTC-6FHDR40

Camera Features:

- 40MP Image Capability
- Gen 2 Night Optics
- Flash Range Extends up to 25 metres
- 0.135 – 0.7 Second Adjustable Trigger Speed
- 4 High Power Infrared LEDs for Night Illumination
- 1080p Full HD Videos with Sound (5 sec. - 2 min. in Length)
- Invisible Infrared LED Nighttime Illumination
- 24 metre Detection Range (User Adjustable)
- 0.5 Second Recovery Time
- Innovative "RADIANT 4" Night IR Illumination
- Adjustable Infrared Flash Options (Long Range, Fast Motion, Economy Modes)
- Illuma-Smart Technology Automatically Adjusts IR Flash for Perfect Nighttime Photos
- SD Card Management
- Long Battery Life from 6 AA Batteries (Not Included)
- Up to 8 Multi Shot Images
- Up to 8 Rapid Fire Images
- Smart IR Video
- Selectable Start/Stop Image Timer
- Programmable Picture Delay (1 sec – 60 min)
- Picture Info Bar Displays: Time, Date, Temperature, Moon Phase, Camera ID, Barometric Pressure
- 12-Volt External Power Jack
- Supports up to 512GB SDXC Memory Card (Not Included)
- ¼" -20 Standard Tripod Socket
- Battery Meter Functions with Alkaline, Rechargeable or Lithium Batteries
- Compact Case Size 110 x 75 x 65mm
- Timelapse Plus Camera Mode with IR Triggered Images
