

Browning Dark Ops Full HD

The popular Dark Ops Full HD game cameras from Browning feature 22 MP picture quality plus an enhanced image processor that produces industry defining 1080p Full HD video. The Dark Ops Full HD also features Radiant 4 Night IR Illumination that generates a flash that is invisible to both humans and animals.

As a result, the imperceptible illumination makes this the perfect camera for not only monitoring wildlife but as a security application as well.

Other features include a lightning fast 0.135 - 0.7 second adjustable trigger speed plus adjustable IR Illumination with Long Range and Economy modes. The Dark Ops Full HD also features a battery meter that is compatible with Alkaline, Rechargeable and Lithium batteries as well as an external 12-volt power jack.

Note: Nighttime video is limited to a maximum duration of 20 seconds. This is to prevent extreme battery drain.

Model Number: BTC-6FHD

Camera Features:

- 22 MP Image Capability
- 90 ft. Flash Range
- 0.135 – 0.7 Second Adjustable Trigger Speed
- 4 High Power Invisible Infrared LEDs for Night Illumination
